Subject index

A

Acetominophen toxicity (Golden et al.), 385
Actinomyces israelii, mandibular osteomyelitis caused by (Walker, Middelkamp, and Sclaroff), 243
Actinomyces of infected dental root canals (Borssén and Sundqvist), 643
Actinomycosis, periapical, conservative treatment of (Freeman, Zimmermann, and Ferrillo), 205
Alveolar clefts, autogenous particulate cancellous bone marrow graft in (Ames, Ryan, and Maki), 588
Ameloblastomas associated with dentigerous cysts (McMillan and Smillie), 489
  recurrent, in autogenous rib graft (Dolan, Angelillo, and Georgiade), 357
Amelogenesis imperfecta and multiple impactions, 460 (Roentgeno-oddities)
American Academy of Oral Medicine, 334, 462 (Announcements)
American Academy of Oral Pathology, 220, 334, 462 (Announcements)
American Board of Oral and Maxillofacial Radiology, Inc., 114 (Announcement)
American Board of Oral Pathology, 334, 462, 568, 662 (Announcements)
Anesthesia, general, tympanic thermometry during, tympanic membrane perforation complication of (Tabor, Blaho, and Schriver), 581
  intraoral regional; Gow-Gates mandibular block (Malamed), 463
Anesthetic, local, solutions, particulate contamination of (Cooley and Lubow), 481
Angina pectoris; orofacial pain of cardiac origin (Tzukert, Hasin, and Sharav), 484
Announcements, 114, 220, 334, 462, 568, 662
Anorexia nervosa; perimolysis (House et al.), 152
Antibody formation to dog pulp tissue altered by camphor paramonochlorophenol via root canal (Block et al.), 637
Antral cysts, mucosal (Allard, Kwast, and Waal), 2
Arthrography, routine and CT-assisted, in suspected internal derangements of temporomandibular joint, new observations with (Katzberg et al.), 569
Arthropathy, calcium pyrophosphate dihydrate, of temporomandibular joint (de Vos et al.), 497

B

Bacteriology and treatment of dental infections, 592 (Letters to editor)
Blood vessels, facial, bilateral calcified, 333 (Roentgeno-oddities)

January, pp. 1-114; February, pp. 115-220; March, pp. 221-334; April, pp. 335-462; May, pp. 463-568; June, pp. 569-674.

Bone, clinical applications of ultrasonic instrumentation in surgical removal of (Horton, Tarpley, and Jacoway), 236
cyst, bilateral traumatic, of mandible (Patrikiou, Sepheriadou-Mavropoulou, and Zambelis), 131
disease, benign fibro-osseous, gross displacement of mandibular canal as radiographic sign of (Goldberg and Sperling), 225
marrow graft, autogenous particulate cancellous, in alveolar clefts (Ames, Ryan, and Maki), 588
scintigraphy of fibro-osseous lesions of jaw (Epstein, Hatcher, and Graham), 346
Branching mandibular canal, 332 (Roentgeno-oddities)
Bridging, calcific, of dental pulp caused by iatrogenic hypercalcemia (Nikiforuk et al.), 317
Burkitt's lymphoma, American, manifested in solitary submandibular lymph node (Abaza, Iczkovitz, and Henefer), 121

C

Calcific bridging of dental pulp caused by iatrogenic hypercalcemia (Nikiforuk et al.), 317
Calcified facial blood vessels, bilateral, 333 (Roentgeno-oddities)
Calcium hydroxide, reaction of exposed pulps to new cements containing (Negm, Combe, and Grant), 190
pyrophosphate dihydrate arthropathy of temporomandibular joint (de Vos et al.), 497
Camphor paramonochlorophenol, antibody formation to dog pulp tissue altered by, via root canal (Block et al.), 637
Canadian Academy of Endodontics, 662 (Announcement)
Canal, mandibular, branching of, 332 (Roentgeno-oddities)
Cancer chemotherapy, oral complications of: symposium, 662 (Announcement)
patient, irradiated edentulous, with xerostomia, dentures as artificial saliva reservoirs in (Vergo and Kadish), 229
Candidiasis and atrophic tongue lesions (Wright and Fenwick), 55
oral: effects of antifungal therapy upon clinical signs and symptoms, salivary antibody, and mucosal adherence of *Candida albicans* (Epstein, Pearsall, and Truelove), 32
Carcinogenesis, hamster buccal pouch, effect of 13-cis-retinoic acid on (Gilmore and Giunta), 256
Carcinoma, cyst and, 219 (Roentgeno-oddities)
lung malignancies metastatic to oral cavity (Kaugars and Svirsky), 179
thyroid; oral-facial manifestations of multiple endocrine neoplasia syndrome (Casino et al.) 516
Cardiac origin of orofacial pain (Tzukert, Hasin, and Sharav), 484
Cements containing calcium hydroxide, reaction of exposed pulps to new (Negm, Combe, and Grant), 190
endodontic, pulp response to, in sound and carious teeth (Paterson), 209
Cherubism, central giant cell granuloma or (Kerley and Schow), 128
Children, inflammatory pseudotumors in buccal tissues of (Liston et al.), 287
Chin prominence; reduction genioplasty (Bell et al.), 471
Cicatricial pemphigoid: direct and indirect immunofluorescent studies (Laskaris and Angelopoulos), 48
13-cis-retinoic acid, effect of, on hamster buccal pouch carcinogenesis (Gilmore and Giunta), 256
Clefts, alveolar, autogenous particulate cancellous bone marrow graft in (Ames, Ryan, and Maki), 588
Columbia University, 114 (Announcement)
Computer-assisted system for reporting of dental radiographs (Seldin et al.), 108
Condylectomy for temporomandibular joint dysfunction (Nelson and Hutton), 351
temporomandibular joint (Dunn et al.), 363
Condyloma acuminatum involving oral mucosa (Swan et al.), 503
Contraceptive, oral, combined preparation, effect of, on dental pulp of experimental animals (Cowie et al.), 426
Coronal dilaceration, 567 (Roentgeno-oddities)
Cyst and carcinoma, 219 (Roentgeno-oddities)
bone, bilateral traumatic, of mandible (Patrikiou, Sepheriadou-Mavropoulou, and Zambelis), 131
dentigerous, ameloblastomas associated with (McMillan and Smillie), 489
mucosal antral (Allard, Kwast, and Waal), 2
odontogenic keratocyst (Wright), 609
periapical, long-standing destructive, unusual management problems in treatment of (Cassella, Pickett, and Chamberlin, 93
radicular; nature of hyaline rings in chronic periostitis and other conditions (El-Labban and Kramer), 509
Cystic complex composite odontoma (Goldberg et al.), 16

D

Dental extractions, epsilon aminocaproic acid in hemophiliacs undergoing (Lucas and Albert), 115
infections, bacteriology and treatment of, 592 (Letters to editor)
pulp of experimental animals, effect of combined oral contraceptive preparation on (Cowie et al.), 426
radiographs, computer-assisted system for reporting of (Seldin et al.), 108
radiology, 99, 213, 320, 450, 560, 653
x-ray images, simulating effects of system components on appearance of (Webber), 560
Dentin, irritational or reparative (Taintor, Biesterfeld, and Langeland), 442
Dentures as artificial saliva reservoirs in irradiated edentulous cancer patient with xerostomia (Vergo and Kadish), 229
Dequalinium acetate, use of, as disinfectant and chemotherapeutic agent in endodontics (Kaufman), 434
Diagnosis of oral mucosal disease, direct immunofluorescence in (Daniels and Quadra-White), 38
Dilaceration, coronal, 567 (Roentgeno-oddities)
Doppler ultrasound, evaluation of lingual artery hemodynamics in stroke patients using (Myers, Davis, and Barker), 252
Down syndrome, taurodontism in (Jaspers), 632

E

Ectopic eruption, "ghost tooth" sequela of 112 (Roentgeno-oddities)
Emory University; clinical associate in oral cancer, 334 (Announcement)
Endocrine neoplasia, multiple, syndrome, oral-facial manifestations of (Casino et al.), 516
Endodontic treatment of teeth with periapical radiolucent areas in general dental practice (Barbakow, Cleaton-Jones, and Friedman), 552
Endodontics, 73, 190, 292, 426, 535, 637
use of dequalinium acetate as disinfectant and chemotherapeutic agent in endodontics (Kaufman), 434
Epithelial hyperplasia, benign, of oral mucosa; condyloma acuminatum involving oral mucosa (Swan et al.), 503
focal (Acevedo, Gonzales, and Nelson), 524
Epsilon aminocaproic acid in hemophiliacs undergoing dental extractions (Lucas and Albert), 115

F

Facial blood vessels, calcified, bilateral, 333 (Roentgeno-oddities)

Fibroma, ameloblastic; analysis of interrelationship of mixed odontogenic tumors (Slootweg), 266
Fibromatosis following enucleation of odontogenic keratocyst (Kraut), 10
gingival, symmetrical (Gould and Escobar), 62
Fibro-odontoma, ameloblastic; analysis of interrelationship of mixed odontogenic tumors (Slootweg), 266
Fibro-osseous bone disease, benign, gross displacement of mandibular canal as radiographic sign of (Goldberg and Sperling), 225
lesions of jaw, bone scintigraphy of (Epstein, Hatcher, and Graham), 346
Floor of mouth, submandibular salivary gland sialoliths perforated through (El Deeb, Holte, and Gorlin), 134
Focal epithelial hyperplasia (Acevedo, Gonzales, and Nelson), 524
Formocresol, dilute, tissue-irritation potential of (Gazi, Nayak, and Bhat), 74
Fracture, geminated supernumerary tooth with, 218 (Roentgeno-oddities)
Fusion of maxillary lateral incisor and supernumerary tooth, 331 (Roentgeno-oddities)

G

Gardner's syndrome (Thomas and Smith), 213
Garré's proliferative periostitis occurring simultaneously in four quadrants of jaws (Eisenbud, Miller, and Roberts), 172
Geminated supernumerary tooth with fracture, 218 (Roentgeno-oddities)
Genioplasty, reduction (Bell et al.), 471
"Ghost tooth"—sequela of ectopic eruption, 112 (Roentgeno-oddities)
Gingival bleeding; hereditary hemorrhagic telangiectasia with oral manifestations (Austin, Quart, and Novak), 245
quinidine-induced thrombocytopenia (Clark et al.), 478
fibromatosis, symmetrical (Gould and Escobar), 62
Gingivitis, plasma-cell (Palmer and Eveson), 187
Globulomaxillary radiolucencies, differential diagnosis of (Wysocki), 281
Gow-Gates mandibular block (Malamed), 463
Graft, autogenous particulate cancellous bone marrow, in alveolar clefts (Ames, Ryan, and Maki), 588
rib, recurrent ameloblastoma in (Dolan, Angelillo, and Georgiade), 357
Granuloma, central giant cell, or cherubism (Kerley and Schow), 128
eosinophilic, of mandible (Damante, Alvares, and Chinellato), 456
surgical glove starch (Wilson and Garach), 342
Granulomatous disease of childhood, chronic, orofacial manifestations of (Scully), 148
Gutta-percha, thermomechanical properties of (Goodman, Schilder, and Aldrich), 544

H

Hair follicles in canine tongue (Swanson), 277
Hemodynamics, lingual artery, evaluation of, in stroke patients using Doppler ultrasound (Myers, Davis, and Barker), 252
Hemophiliacs undergoing dental extractions, epsilon aminocaproic acid in (Lucas and Albert), 115
Hemorrhagic telangiectasia, hereditary, with oral manifestations (Austin, Quart, and Novak), 245
Histiocytoma, malignant fibrous, myxoid variant metastatic to oral cavity (Van Hale et al.), 156
Histiocytosis X; eosinophilic granuloma of mandible (Damante, Alvares, and Chinellato), 456
Hyaline rings in chronic periostitis and other conditions, nature of (El-Labban and Kramer), 509
Hypercalcemia, iatrogenic, calcific bridging of dental pulp caused by (Nikiforuk et al.), 317
Hyperplasia, benign epithelial, of oral mucosa; condyloma acuminatum involving oral mucosa (Swan et al.), 503
focal epithelial (Acevedo, Gonzales, and Nelson), 524
Hypoglossia-hypodactylia syndrome (Lustmann et al.), 403

I

Iatrogenic hypercalcemia, calcific bridging of dental pulp caused by (Nikiforuk et al.), 317
Image resolution in dental and maxillofacial radiography with conventional and "free focus" imaging concepts (Jensen, Goldberg, and Randall), 653
Immunofluorescence, direct and indirect, in study of cicatricial pemphigoid (Laskaris and Angelopoulos), 48
in oral mucosal disease: diagnostic analysis of 130 cases (Daniels and Quadra-White), 38
Immunofluorescent studies, diagnostic value of; juvenile pemphigus vulgaris (Laskaris, Sklavounou, and Bovopoulou), 415
Immunoglobulins, complement, and fibrinogen, deposits of, in oral lupus erythematosus, lichen planus, and leukoplakia (Schiødt et al.), 603
Impactions, multiple, amelogenesis imperfecta, 460 (Roentgeno-oddities)
Infections, dental, bacteriology and treatment of, 592 (Letters to editor)
oral, increased morbidity associated with, in patients with acute nonlymphocytic leukemia (Peterson and Overholser), 390
Innervation of inflammatory periapical lesions (Lin and Langeland), 535
Instrumentation, ultrasonic, clinical applications of, in surgical removal of bone (Horton, Tarpley, and Jacoway), 236
International Association of Stomatology, 568 (Announcement)

J

Jaw, bone scintigraphy of fibro-osseous lesions of (Epstein, Hatcher, and Graham), 346
Garré's proliferative periostitis occurring simultaneously in four quadrants of (Eisenbud, Miller, and Roberts), 172

K

Keratocyst, odontogenic, fibromatosis following enucleation of (Kraut), 10
orthokeratinized variant (Wright), 609

L

Lesion, maxillary radiolucency phantom (Hayward), 584
Letters to editor, 592
Leukemia, acute nonlymphocytic, increased morbidity associated with oral infection in patients with (Peterson and Overholser), 390
Leukoplakia, oral lupus erythematosus, lichen planus, and, deposits of immunoglobulins, complement, and fibrinogen in (Schiødt et al.), 603
Lingual artery hemodynamics, evaluation of, in stroke patients using Doppler ultrasound (Myers, Davis, and Barker), 252
Lipodystrophy syndrome, partial, correction of maxillofacial deformities in patient with (Rosenlicht, Murphy, and Doku), 140
Lung malignancies metastatic to oral cavity (Kaugars and Svirsky), 179
Lupus erythematosus, lichen planus, and leukoplakia, oral, deposits of immunoglobulins, complement, and fibrinogen in (Schiødt et al.), 603

Lymphoma, American Burkitt's, manifested in solitary submandibular lymph node (Abaza, Iczkovitz, and Henefer), 121

M

Macrogenia; reduction genioplasty (Bell et al.), 471
Mandible, bilateral traumatic bone cyst of (Patrikiou, Sepheriadou-Mavropoulou, and Zambelis), 131
  changes in, in scleroderma (Weiner and Wolf), 329
  eosinophilic granuloma of (Damante, Alvares, and Chinellato), 456
  primary malignant giant cell tumor of (Mintz et al.), 164
Mandibular block, Gow-Gates (Malamed), 463
  canal, gross displacement of; radiographic sign of benign fibro-osseous bone disease (Goldberg and Sperling), 225
  osteomyelitis caused by *Actinomyces israelii* (Walker, Middelkamp, and Sclaroff), 243
  prognathism; means of documentation in surgical correction of Class III edentulous cases (Coffey), 361
  radiopacities; Gardner's syndrome (Thomas and Smith), 213
  ridge extension procedure, simplified two-stage (Burton and Holton), 335
Maxillary molars demonstrating more than one palatal root canal (Stone and Stroner), 649
  radiolucency phantom lesion (Hayward), 584
  sinus; fibromatosis following enucleation of odontogenic keratocyst (Kraut), 10
    mucosal antral cysts (Allard, Kwast, and Waal), 2
Maxillofacial deformities, correction of, in patients with partial lipodystrophy syndrome (Rosenlicht, Murphy, and Doku), 140
Mefenamic acid, control of pain by, following removal of impacted molar (Rowe, Cudmore, and Turner), 575
Mexican Dental Association, 220 (Announcement)
Micrognathia; hypoglossia-hypodactylia syndrome (Lustmann et al.), 403
Molar, impacted, control of pain by mefenamic acid following removal of (Rowe, Cudmore, and Turner), 575
  maxillary, demonstrating more than one palatal root canal (Stone and Stroner), 649
  unerupted mandibular third, change in position of, 461 (Roentgeno-oddities)
Mucocutaneous marker of pseudoxanthoma elasticum (Goette and Carpenter), 68
Mucosal antral cysts (Allard, Kwast, and Waal), 2
  lesions, pemphigus-like: side effect of penicillamine therapy (Eisenberg et al.), 409
Mycosis fungoides with oral manifestations (Wright, Balciunas, and Muus), 24

N

Neuroma, traumatic, of oral cavity (Sist and Greene), 394
Nystatin, topical, effects of, in treatment of oral candidiasis (Epstein, Pearsall, and Truelove), 32

O

Odontomas; analysis of interrelationship of mixed odontogenic tumors (Slootweg), 266
  cystic complex composite (Goldberg et al.), 16
Open-bite, bilateral posterior (Kapoor, Srivastava, and Singh), 21
Oral cancer, clinical associate in, 334 (Announcement)
  candidiasis: effects of antifungal therapy upon clinical signs and symptoms, salivary antibody, and mucosal adherence of *Candida albicans* (Epstein, Pearsall, and Truelove), 32
Oral—cont'd
  cavity, lung malignancies metastatic to (Kaugars and Svirsky), 179
    myxoid variant of malignant fibrous histiocytoma metastatic to (Van Hale et al.), 156
    traumatic neuroma of (Sist and Greene), 394
  complications of cancer chemotherapy: symposium, 662 (Announcement)
  contraceptive preparation, combined, effect of, on dental pulp of experimental animals (Cowie et al.), 426
  -facial manifestations of multiple endocrine neoplasia syndrome (Casino et al.), 516
  infection, increased morbidity associated with, in patients with acute nonlymphocytic leukemia (Peterson and Overholser), 390
  lupus erythematosus, lichen planus, and leukoplakia, deposits of immunoglobulins, complement, and fibrinogen in (Schiødt et al.), 603
  manifestations of hereditary hemorrhagic telangiectasia (Austin, Quart, and Novak), 245
  medicine, 23, 144, 245, 385, 484, 594
  mucosa, condyloma acuminatum involving (Swan et al.), 503
  mucosal disease, direct immunofluorescence in: diagnostic analysis of 130 cases (Daniels and Quadra-White), 38
  pathology, 37, 156, 256, 394, 489, 603
  pemphigus vulgaris: immunofluorescent study of fifty-eight cases (Laskaris), 626
  surgery, 1, 115, 221, 335, 463, 569
Orofacial manifestations of chronic granulomatous disease of childhood (Scully), 148
  pain of cardiac origin (Tzukert, Hasin, and Sharav), 484
Osteoarthritis of temporomandibular joint, treatment of (Kraut), 355
Osteogenic sarcoma of tongue (Reyes et al.), 421
Osteomyelitis, mandibular, caused by *Actinomyces israelii* (Walker, Middelkamp, and Sclaroff), 243

P

Pain, control of, by mefenamic acid following removal of impacted molar (Rowe, Cudmore, and Turner), 575
  facial; stylohyoid syndrome (Winkler et al.), 215
  orofacial, of cardiac origin (Tzukert, Hasin, and Sharav), 484
Pemphigoid, cicatricial: direct and indirect immunofluorescent studies (Laskaris and Angelopoulos), 48
Pemphigus vulgaris, juvenile (Laskaris, Sklavounou, and Bovopoulou), 415
    oral (Laskaris), 626
Pemphigus-like mucosal lesions: side effect of penicillamine therapy (Eisenberg et al.), 409
Perforation of oral floor by submandibular salivary gland sialoliths (El Deeb, Holte, and Gorlin), 134
  of tympanic membrane: complication of tympanic thermometry during general anesthesia (Tabor, Blaho, and Schriver), 581
Periapical actinomycosis, conservative treatment of (Freeman, Zimmermann, and Ferrillo), 205
  cyst, long-standing destructive, unusual management problems in treatment of (Cassella, Pickett, and Chamberlin), 93
  lesions, inflammatory, innervation of (Lin and Langeland), 535
  radiolucent areas, endodontic treatment of teeth with, in general dental practice (Barbakow, Cleaton-Jones, and Friedman), 552
Perimolysis: unveiling surreptitious vomiter (House et al.), 152
Periodontal treatment; hereditary hemorrhagic telangiectasia with oral manifestations (Austin, Quart, and Novak), 245
Periodontitis, consensus development conference on surgical therapy for, 462 (Announcement)

Periostitis, chronic, and other conditions, nature of hyaline rings in (El-Labban and Kramer), 509
Garré's proliferative, occurring simultaneously in four quadrants of jaws (Eisenbud, Miller, and Roberts), 172
Phantom lesion, maxillary radiolucency (Hayward), 584
Plasma-cell gingivitis (Palmer and Eveson), 187
Polycycloidal corrected tomography of temporomandibular joint (Dann et al.), 375
Polylactic acid, effect of, on replanted teeth in dogs (Hardy, O'Neal, and del Rio), 86
Potassium nitrate paste, 5 percent, used for desensitization, pulpal effects of brushing with (Tarbet et al.), 600
Prediction of tooth length in intraoral radiography, effect of radiographic technique upon (Bhakdinaronk and Manson-Hing), 100
Prognathism, mandibular; means of documentation in surgical correction of Class III edentulous cases (Coffey), 361
Pseudogout; calcium pyrophosphate dihydrate arthropathy of (de Vos et al.), 497
Pseudotumors, inflammatory, in buccal tissues of children (Liston et al.), 287
Pseudoxanthoma elasticum, mucocutaneous marker of (Goette and Carpenter), 68
Pulp, dental, calcific bridging of, caused by iatrogenic hypercalcemia (Nikiforuk et al.), 317
of experimental animals, effect of combined oral contraceptive preparation on (Cowie et al.), 426
exposed, reaction to new cements containing calcium hydroxide (Negm, Combe, and Grant), 190
exposures, carious, light and electron microscopic study of teeth with (Lin and Langeland), 292
response in sound and carious teeth (Paterson), 209
Pulpal effects of brushing with 5 percent potassium nitrate paste used for desensitization (Tarbet et al.), 600

Q

Quinidine-induced thrombocytopenia (Clark et al.), 478

R

Radiographs, dental, computer-assisted system for reporting of (Seldin et al.), 108
duplicated, evaluation of quality of (Thunthy and Weinberg), 450
zebra effect in, 566 (Roentgeno-oddities)
Radiographic technique, effect of, upon prediction of tooth length in intraoral radiography (Bhakdinaronk and Manson-Hing), 100
Radiography, dental and maxillofacial, image resolution in, with conventional and "free focus" imaging concepts (Jensen, Goldberg, and Randall), 653
intraoral, effect of radiographic technique upon prediction of tooth length in intraoral radiography (Bhakdinaronk and Manson-Hing), 100
Radiolucencies, globulomaxillary, differential diagnosis of (Wysocki), 281
maxillary, phantom lesion (Hayward), 584
Radiolucent areas, periapical, endodontic treatment of teeth with, in general dental practice (Barbakow, Cleaton-Jones, and Friedman), 552
Radiopacity of root canal sealers (Beyer-Olsen and Ørstavik), 320
Reduction genioplasty (Bell et al.), 471
Replanted teeth, effect of polylactic acid on, in dogs (Hardy, O'Neal, and del Rio), 86
Resorption of tooth roots and cortical plates; unusual management problems in treatment of long-standing destructive periapical cyst (Cassella, Pickett, and Chamberlin), 93
root, caused by adjacent impacted tooth (Nitzan, Keren, and Marmary), 221
Rib graft, autogenous, recurrent ameloblastoma in (Dolan, Angelillo, and Georgiade), 357
Roentgeno-oddities, 112, 218, 331, 460, 566
Root canal, antibody formation to dog pulp tissue altered by camphor paramonochlorophenol via (Block et al.), 637
infected dental, actinomyces of (Borssén and Sundqvist), 643
palatal, maxillary molars demonstrating more than one (Stone and Stroner), 649
sealers, radiopacity of (Beyer-Olsen and Ørstavik), 320
resorption of tooth adjacent to impacted tooth (Nitzan, Keren, and Marmary), 221

S

Saliva, artificial, dentures as reservoirs in irradiated edentulous cancer patient with xerostomia (Vergo and Kadish), 229
in treatment of xerostomia (Spielman et al.), 144
substitute; treatment of xerostomia (Klestov et al.), 594
Sarcoma, osteogenic, of tongue (Reyes et al.), 421
Scintigraphy, bone, of fibro-osseous lesions of jaw (Epstein, Hatcher, and Graham), 346
Scleroderma, changes in mandible in (Weiner and Wolf), 329
Sealers, root canal, radiopacity of (Beyer-Olsen and Ørstavik), 320
Sialoliths, submandibular salivary gland, perforated through oral floor (El Deeb, Holte, and Gorlin), 134
Sjögren's syndrome; treatment of xerostomia (Klestov et al.), 594
Southeastern Colorado Dental Society, 568 (Announcement)
Starch, surgical glove, granuloma (Wilson and Garach), 342
Stent, transalveolar, stabilization, precision method for (Freidline, Gongloff, and Porter), 234
Stroke patients, evaluation of lingual artery hemodynamics in, using Doppler ultrasound (Myers, Davis, and Barker), 252
Stylohyoid syndrome (Winkler et al.), 215
Surgical correction of Class III edentulous cases, means of documentation in (Coffey), 361
glove starch granuloma (Wilson and Garach), 342
removal of bone, clinical applications of ultrasonic instrumentation in (Horton, Tarpley, and Jacoway), 236

T

Taurodontism in Down syndrome (Jaspers), 632
Teeth, replanted, effect of polylactic acid on, in dogs (Hardy, O'Neal, and del Rio), 86
sound and carious, pulp response in (Paterson), 209
with carious pulp exposures, light and electron microscopic study of (Lin and Langeland), 292
with periapical radiolucent areas, endodontic treatment of, in general dental practice (Barbakow, Cleaton-Jones, and Friedman), 552
Telangiectasia, hereditary hemorrhagic, with oral manifestations (Austin, Quart, and Novak), 245
Temporomandibular joint, calcium pyrophospate dihydrate arthropathy of (de Vos et al.), 497
condylectomy (Dunn et al.), 363
dysfunction, condylectomy for (Nelson and Hutton), 351
polycycloidal corrected tomography of (Dunn et al.), 375
suspected internal derangements of, new observations with routine and CT-assisted arthrography in (Katzberg et al.), 569
treatment of osteoarthritis of (Kraut), 355
Thermomechanical properties of gutta-percha (Goodman, Schilder, and Aldrich), 544
Thermometry, tympanic, during general anesthesia, tympanic membrane perforation complication of (Tabor, Blaho, and Schriver), 581

Thrombocytopenia, quinidine-induced (Clark et al.), 478
Thyroid, carcinoma of; oral-facial manifestations of multiple endocrine neoplasia syndrome (Casino et al.), 516
Tissue-irritation potential of dilute formocresol (Gazi, Nayak, and Bhat), 74
Tomography, polycycloidal corrected, of temporomandibular joint (Dunn et al.), 375
Tongue, canine, hair follicles in (Swanson), 277
  condyloma acuminatum involving oral mucosa (Swan et al.), 503
  lesions, atrophic, candidiasis and (Wright and Fenwick), 55
  osteogenic sarcoma of (Reyes et al.), 421
  reduced size; hypoglossia-hypodactylia syndrome (Lustmann et al.), 403
Tonsilloliths, 133 (Roentgeno-oddities)
Tooth eruption, ectopic, "ghost tooth" sequela of, 112 (Roentgeno-oddities)
  extraction; control of pain by mefenamic acid following removal of impacted molar (Rowe, Cudmore, and Turner), 575
  geminated supernumerary, with fracture, 218 (Roentgeno-oddities)
  hypersensitivity; pulpal effects of brushing with 5 percent potassium nitrate paste used for desensitization (Tarbet et al.), 600
  impacted, as cause of root resorption of adjacent one (Nitzan, Keren, and Marmary), 221
  supernumerary, fusion of maxillary lateral incisor and, 331 (Roentgeno-oddities)
Transalveolar stent stabilization, precision method for (Freidline, Gongloff, and Porter), 234
Traumatic neuroma of oral cavity (Sist and Greene), 394
Tumors, mixed odontogenic—ameloblastic fibroma, ameloblastic fibro-odontoma, and odontomas, analysis of interrelationship of (Slootweg), 266
  primary malignant giant cell, of mandible (Mintz et al.), 164
Tympanic membrane perforation: complication of tympanic thermometry during general anesthesia (Tabor, Blaho, and Schriver), 581

U

Ulcerations of hard palate; mycosis fungoides with oral manifestations (Wright, Balciunas, and Muus), 24
Ultrasonic instrumentation, clinical applications of, in surgical removal of bone (Horton, Tarpley, and Jacoway), 236
Ultrasound, Doppler, evaluation of lingual artery hemodynamics in stroke patients using (Myers, Davis, and Barker), 252

V

Verruciform xanthoma (Nowparast, Howell, and Rick), 619
Vomiter, surreptitious: perimolysis (House et al.), 152

W

Wilson's disease; pemphigus-like mucosal lesions: side effect of penicillamine therapy (Eisenberg et al.), 409

X

Xanthoma, verruciform (Nowparast, Howell, and Rick), 619
Xerostomia, dentures as artificial saliva reservoirs in irradiated edentulous cancer patient with (Vergo and Kadish), 229
  diagnosis and treatment (Spielman et al.), 144
  treatment of: double-blind trial in 108 patients with Sjögren's syndrome (Klestov et al.), 594
X-ray images, dental, simulating effects of system components on appearance of (Webber), 560

Z

Zebra effect in radiograph, 566 (Roentgeno-oddities)

A

Abscesses, dental; *Actinobacillus actinomycetemcomitans* infection in oral cavity (Peel, Rich, and Reade), 591
lingual, following traumatic penetration of tooth into tongue (Palestini), 485
Acanthoma, pilar sheath (Wertheimer and Kerchner), 264
Actinobacillus actinomycetemcomitans infection in oral cavity (Peel, Rich, and Reade), 591
Adenoma, pleomorphic, of salivary gland origin, "hyaline cells" in (Buchner, David, and Hansen), 506
Adenomatoid hyperplasia of mucous salivary glands (Arafat, Brannon, and Ellis), 51
Adenomatosis coli, osteomatous changes and tooth abnormalities found in jaws of patients with (Ida, Nakamura, and Utsunomiya), 2
AH26, anesthesia following endodontic overfilling with (Spielman, Gutman, and Laufer), 554
Alcohol injection in treatment of trigeminal neuralgia (Mruthyunjaya and Raju), 125
Aldehydes, diffusion in vitro of some, in root canals of human teeth, quantitative measurements of ('s-Gravenmade, Wemes, and Dankert), 97
Amelogenesis imperfecta, hypomaturation type (snow-capped teeth), clinical, genetic, and ultrastructural study of (Escobar, Goldblatt, and Bixler), 607
American Academy of Oral Medicine, 568 (Announcement)
American Academy of Oral Pathology, proceedings of annual meeting, 604
American Association of Endodontics announces grants-in-aid for research, 460 (Announcement)
American College of Stomatologic Surgeons, 326; 568 (Announcement)
Anaerobic sampling technique, comparison of bacterial growth in improperly but commonly used medium versus reduced thioglycolate with use of (Griffee et al.), 433
Analysis, architectural and structural craniofacial (Delaire, Schendel, and Tulasne), 226
Anemia, pernicious, clinical and histologic changes of oral mucosa in (Greenberg), 38
Anesthesia following endodontic overfilling with AH26 (Spielman, Gutman, and Laufer), 554
Angiopathy, giant cell hyalin, or pulse granuloma (McMillan et al.), 178
Angiosarcoma metastatic to maxillary tuberosity gingiva (Toth et al.), 71
Announcements, 112, 224, 348, 460, 568, 666
Antibiotics, effectiveness of, against microbes isolated in acute pulpal-alveolar cellulitis syndrome (Matusow), 187
Anxiety in endodontic patients; stress, relaxation, and saliva (Morse et al.), 308
Apical seal obtained with endodontic implant stabilizers and different cementing materials, evaluation of (Zmener), 635
Arteriovenous malformation of mandible (Anderson, Grisius, and McKean), 118
Arthritis, sarcoid temporomandibular (Schwartz), 588
Asphyxia, neonatal, secondary to Robin complex and neuroglia heterotopia of nasopharynx (Sinn et al.), 137
Audiostimulation and electromyographic biofeedback, application of, to bruxism and myofascial pain-dysfunction syndrome (Manns, Miralles, and Adrián), 247
Auriculotemporal (Frey's) syndrome (Scouteris et al.), 368
Azothioprine and prednisone in treatment of patients with vesiculoerosive oral diseases (Lozada), 257

B

Bacteria, blood-borne, localization of, in instrumented unfilled root canals (Delivanis, Snowden, and Doyle), 430
Bacterial endocarditis (Thornton and Alves), 379
growth in improperly but commonly used medium versus reduced thioglycolate with use of anaerobic sampling technique (Griffee et al.), 433
Bacteriology of dentogenous pyogenic infections (Aderhold, Knothe, and Frenkel), 583
Bayes' theorem; probabilities of success and failure in endodontic treatment (Thoden van Velzen, Duivenvoorden, and Schuurs), 85
Bleeding, severe, in patient with undiagnosed Factor XI deficiency, complications of (Evian et al.), 12
Blood flow, gingival; effects of intra-arterial epinephrine and nicotine on gingival circulation (Clarke, Shephard, and Hirsch), 577
pressure, drop in; vancomycin-induced hypotension (Waters and Rosenberg), 239
vessels, collateralization of contralateral; central hemangioma of mandible (Sadowsky et al.), 471
Bone defects, experimental, effects of granular gelatin preparation on healing of (Laskin, Lucas, and Davis), 23
reconstruction devices to correct disfigurement following hemimandibulectomy, photoelastic stress analysis of (Williams, Caputo, and Sanders), 339
Bridge, dental, in GI tract, 221 (Roentgeno-oddities)
Bruxism and myofascial pain-dysfunction syndrome, application of audiostimulation and electromyographic biofeedback to (Manns, Miralles, and Adrián), 247
Buccal nerve, aberrant, encountered at third molar surgery (Singh), 142
Bullet, removal from face via intraoral approach; foreign body in right condyle area (Beasley), 241

C

Calcified mass, unusual, of maxillary sinus (Billingsley, Buhler, and Schow), 244
Calcium-eugenol cement, capping of monkey pulps with Dycal and (Hørsted, El Attar, and Langeland), 531
Canadian Academy of Endodontics, 112, 224 (Announcements)
Cancer, oral, immunologic reaction to (Toto, Bromberg, and Toto), 327
patients, parotid gland pathophysiology after mixed gamma and neutron irradiation of (Anderson, Izutsu, and Rice), 495
Cancrum oris; noma in nonhuman primate (Buchanan et al.), 19
Candida albicans infection; acute pulpal-alveolar cellulitis syndrome (Matusow), 630
Candidosis, recurrent chronic atrophic, retrospective study of patients with (Samaranayake and MacFarlane), 150
Capping of monkey pulps with Dycal and a Ca-eugenol cement (Hørsted, El Attar, and Langeland), 531
Carbamazepine in treatment of trigeminal neuralgia (Mruthyunjaya and Raju), 126
Carcinoma, epidermoid, of gingiva: possible relationship to PUVA therapy (Krutchkoff, Eisenberg, and Neckritz), 44
metastatic prostatic, oral radiographic manifestations of (Ciola), 105

July, pp. 1-112; August, pp. 113-224; September, pp. 225-348; October, pp. 349-460; November, pp. 461-568; December, pp. 569-680.

Carcinoma—cont'd
oral squamous cell, melanocyte colonization of (Dunlap and Tomich), 524
verrucous, of oral cavity (McCoy and Waldron), 623
Caries, zero incidence; comparison of identical twins in relation to three dental anomalies (Rubin et al.), 391
Carotid arterial plaques, panoramic radiographic identification of (Friedlander and Lande), 102
Cartilage analogue of fibromatosis, paraoral (Corio, Goldblatt, and Edwards), 56
Cellular nevi, intramucosal (Devildos and Langlois), 162
Cellulitis syndrome, acute pulpal-alveolar (Matusow), 187, 630
Cement, calcium-eugenol, capping of monkey pulps with Dycal and (Hørsted, El Attar, and Langeland), 531
Cementing materials, evaluation of apical seal obtained with endodontic implant stabilizers and different (Zmener), 635
Cephalometric radiography, faster screen/film combinations for (Hurlburt), 661
Chondrosarcoma, mesenchymal, of mandible (Caravolas et al.), 478
Circulation, gingival, effects of intra-arterial epinephrine and nicotine on (Clark, Shephard, and Hirsch), 577
Computed tomography of maxilla in edentulous patients (Engström and Svendsen), 557
Computerized tomography, value of, in oral surgery (Frame and Wake), 357
Condyle, foreign body in area of right (Beasley), 241
osteoma of, 223 (Roentgeno-oddities)
Conference and workshop on myofacial pain dysfunction, 348 (Announcement)
Craniofacial analysis, architectural and structural (Delaire, Schendel, and Tulasne), 226
Crown size and incidence of bifid root canals in mandibular incisor teeth, relationship between (Warren and Laws), 425
Cyst, dentigerous, of maxillary sinus causing elevation of orbital floor (Golden et al.), 133
Cystadenoma lymphomatosum, papillary, arising in minor salivary glands (Fantasia and Miller), 411

D

Demineralizing deficiency of EDTA solutions on dentin (Cury, Bragotto, and Valdrighi), 446
Dental anomalies, comparison of identical twins in relation to three: multiple supernumerary teeth, juvenile periodontosis, and zero caries incidence (Rubin et al.), 391
bridge in GI tract, 221 (Roentgeno-oddities)
imaging without x-rays: NMR (Luijk), 321
materials, effect of certain, on human pulp in tissue culture (Das), 76
procedures and bacterial endocarditis (Thornton and Alves), 379
radiology, 101, 213, 314, 449, 557, 657
xeroradiographs, duplication of (Gratt and Sickles), 449
x-ray beams, energy-selective filtration of (Gelsky and Baker), 565
Dentin, demineralizing efficiency of EDTA solutions on (Cury, Bragotto, and Valdrighi), 446
Dentistry, pain poor parameter of evaluation in (Taintor et al.), 299
Dentition, primary, passive delayed eruption of, secondary to Dilantin administration (Reich, Bernbaum, and Moskowitz), 599
Denture, mandibular, stability, muscle tendon release and transposition for enhancement of (Friedlander), 461
stomatitis; retrospective study of patients with recurrent chronic atrophic candidosis (Samaranayake and MacFarlane), 150
Dermatologic lesion resulting from mandibular molar with periradicular pathosis (Braun and Lehman), 210
Diabetes mellitus, asymptomatic parotid gland enlargement in (Russotto), 594
uncontrolled, accelerated periodontal breakdown in (Bartolucci and Parkes), 387
Diagnosis and dose reduction, synchronized biplane videoradiographic system employing image manipulation for improved (Berry and Hofmann), 657
Dilantin administration, passive delayed eruption of primary dentition secondary to (Reich, Bernbaum, and Moskowitz), 599
Dycal and Ca-eugenol cement, capping of monkey pulps with (Hørsted, El Attar, and Langeland), 531
Dyskeratoma, warty, of oral mucosa (Patibanda), 422
Dyskeratosis, oral focal acantholytic (Freedman, Lumerman, and Kerpel), 66
Dysplasia, fibrous, surrounding retained root, 110 (Roentgeno-oddities)

E

Editorials, 255, 326
EDTA solutions, demineralizing efficiency of, on dentin (Cury, Bragotto, and Valdrighi), 446
Electromyographic feedback, application of audiostimulation and, to bruxism and myofascial pain-dysfunction syndrome (Manns, Miralles, and Adrián), 247
Enamel in odontodysplasia (Kerebel and Kerebel), 404
Endocarditis, bacterial (Thornton and Alves), 379
Endodontic access to maxillary lateral incisors (Zillich and Jerome), 443
culturing; comparison of bacterial growth in improperly but commonly used medium versus reduced thioglycolate with use of anaerobic sampling technique (Griffee et al.), 433
implant stabilizers and different cementing materials, evaluation of apical seal obtained with (Zmener), 635
materials; comparison of pulp responses to two different, in dog and rat (Watts and Paterson), 648
overfilling with AH26, anesthesia following (Spielman, Gutman, and Laufer), 554
patients, anxiety in; stress, relaxation, and saliva (Morse et al.), 308
procedures and filling materials, experimental evaluation of (Garcia et al.), 641
surgery, exploratory (Salamat, Rezai, and Knight), 437
treatment, conservative; dual sinus tracts from single tooth (Weisman), 653
of patients who have undergone irradiation of head and neck (Markitziu and Heling), 294
probabilities of success and failure in: Bayesian approach (Thoden van Velzen, Duivenvoorden, and Schuurs), 85
Endodontics, 75, 187, 294, 425, 531, 630

Epinephrine and nicotine, intra-arterial, effects of, on gingival circulation (Clarke, Shephard, and Hirsch), 577
Eruption of primary dentition, passive delayed, secondary to Dilantin administration (Reich, Bernbaum, and Moskowitz), 599
Erythema, palatal, secondary to fellatio, variations of (Damm, White, and Brinker), 417

F

Facial trauma; parotid duct injuries (Van Sickels and Alexander), 354

Factor XI deficiency, complications of severe bleeding in patient with undiagnosed (Evian et al.), 12
Fellatio, variations of palatal erythema secondary to (Damm, White, and Brinker), 417
Fibromatosis, aggressive, involving paramandibular soft tissues (Rodu, Weathers, and Campbell), 395
paraoral cartilage analogue of (Corio, Goldblatt, and Edwards), 56
Fibrous dysplasia surrounding retained root, 110 (Roentgeno-oddities)
Filling materials, endodontic procedures and, experimental evaluation (Garcia et al.), 641
Film speed and beam alignment, effects of errors in, on image layer in rotational panoramic radiography (McDavid et al.), 561
Filtration, energy-selective, of dental x-ray beams (Gelsky and Baker), 565
5-Fluorouracil, evaluation of, in treatment of actinic keratosis of lip (Warnock, Fuller, and Pelleu), 501
Focal acantholytic dyskeratosis, oral (Freedman, Lumerman, and Kerpel), 66
Foreign body in right condyle area (Beasley), 241
Fracture, vertical root, additional clinical observation in two cases of (Meister et al.), 91
Frey's syndrome (Scouteris et al.), 368
Fusion, complete, 109 (Roentgeno-oddities)

G

Gasserian ganglion, alcohol injection to, in treatment of trigeminal neuralgia (Mruthyunjaya and Raju), 125
Gastrointestinal tract, dental bridge in, 221 (Roentgeno-oddities)
Gelatin, granular, preparation, effects of, on healing of experimental bone defects (Laskin, Lucas, and Davis), 23
Gingiva, epidermoid carcinoma of: possible relationship to PUVA therapy (Krutchkoff, Eisenberg, and Neckritz), 44
maxillary tuberosity, angiosarcoma metastatic to (Toth et al.), 71
traumatic lesions of, provoked by toothbrushing, 261 (Letters to editor)
Gingival circulation, effects of intra-arterial epinephrine and nicotine on (Clarke, Shephard, and Hirsch), 577
hyperplasia; passive delayed eruption of primary dentition secondary to Dilantin administration (Reich, Bernbaum, and Moskowitz), 599
impaction, gingivitis induced by, in monkeys (Toto, Kollar, and Gargiulo), 333
pigmentation as sole presenting sign of chronic lead poisoning in mentally retarded adult (Lockhart), 143
Gingivitis induced by gingival impaction in monkeys (Toto, Kollar, and Gargiulo), 333
Glomus tumor (glomangioma) of tongue (Tajima et al.), 288
Granular gelatin preparation, effects of, on healing of experimental bone defects (Laskin, Lucas, and Davis), 23
Granuloma, pulse, giant cell hyalin angiopathy or (McMillan et al.), 178
Gunshot wound of face; foreign body in right condyle area (Beasley), 241

H

Hamulus, pterygoid (Charbeneau and Blanton), 574
Head and neck, endodontic treatment of patients who have undergone irradiation of (Markitziu and Heling), 294
Hemangioma, central, of mandible (Sadowsky et al.), 471
Hemimandibulectomy bone reconstruction devices, photoelastic stress analysis of (Williams, Caputo, and Sanders), 339
Histiocytomas, fibrous, of oral mucosa (Hoffman and Martinez), 277
Histoplasmosis, oral, spontaneous regression of (Young, Rohrer, and Twesme), 267
"Hyaline cells" in pleomorphic adenoma of salivary gland origin (Buchner, David, and Hansen), 506
Hyperplasia, adenomatoid, of mucous salivary glands (Arafat, Brannon, and Ellis), 51
gingival; passive delayed eruption of primary dentition secondary to Dilantin administration (Reich, Bernbaum, and Moskowitz), 599
Hypotension, vancomycin-induced (Waters and Rosenberg), 239

I

Image layer analysis in rotational panoramic radiography, new method for (McDavid, Welander, and Morris), 213
manipulation, synchronized biplane videoradiographic system employing, for improved diagnosis and dose reduction (Berry and Hofmann), 657
Immunologic reaction to oral cancer (Toto, Bromberg, and Toto), 327
Immunoperoxidase techniques, diagnostic use of, for plasma cell lesions of jaws (Wright, Wysocki, and Bannerjee), 615
Impaction, gingival, gingivitis induced by, in monkeys (Toto, Kollar, and Gargiulo), 333
Implant, endodontic, stabilizers and different cementing materials, evaluation of apical seal obtained with (Zmener), 635
Incisors, mandibular, relationship between crown size and incidence of bifid root canals in (Warren and Laws), 425
maxillary lateral, endodontic access to (Zillich and Jerome), 443
Infection, *Actinobacillus actinomycetemcomitans* in oral cavity (Peel, Rich, and Reade), 591
Candida albicans; acute pulpal-alveolar cellulitis syndrome (Matusow), 630
dentogenous pyogenic, bacteriology of (Aderhold, Knothe, and Frenkel), 583
Injuries, parotid duct (Van Sickels and Alexander), 364
International Conference on Defined Immunofluorescence, Immunoenzyme Studies, and Related Labeling Techniques, 112, 224 (Announcements)
Irradiation, mixed gamma and neutron, of cancer patients, parotid gland pathophysiology after (Anderson, Izutsu, and Rice), 495
of head and neck, endodontic treatment of patients who have undergone (Markitziu and Heling), 294
Irrigating solutions for endodontics, efficacy of several (Goldman et al.), 197

J

Jaws of edentulous patients, findings from radiographs of (Spyropoulos, Patsakas, and Angelopoulos), 455
plasma cell lesions of, diagnostic use of immunoperoxidase techniques for (Wright, Wysocki, and Bannerjee), 615

K

Keratosis, actinic, of lip, evaluation of 5-fluorouracil in treatment of (Warnock, Fuller, and Pelleu), 501

L

Lead poisoning, chronic, in mentally retarded adult, gingival pigmentation as sole presenting sign (Lockhart), 143
Lesion, dermatologic, resulting from mandibular molar with periradicular pathosis (Braun and Lehman), 210

Lesion–cont'd
plasma cell, of jaws, diagnostic use of immunoperoxidase techniques for (Wright, Wysocki, and Bannerjee), 615
small yellow pustular, on oral mucosa; pyostomatitis vegetans (Cataldo, Covino, and Tesone), 172
traumatic, of gingiva provoked by toothbrushing, 261 (Letters to editor)
Letters to editor, 261
Ligament, stylohyoid, symptomatic fractured, ossified, surgical management of (Solfanelli, Braun, and Sotereanos), 569
Lingual sulcus, creation of, in patient with severely atrophied mandible; muscle tendon release and transposition for enhancement of mandibular denture stability (Friedlander), 461
Lip, actinic keratosis of, evaluation of 5-fluorouracil in treatment of (Warnock, Fuller, and Pelleu), 501
lower; pilar sheath acanthoma (Wertheimer and Kerchner), 264
Lipomas of parotid gland (Baker, Jensen, and Correll), 167
parosteal, of mandible (Steiner et al.), 61
Loyola University School of Dentistry, 112 (Announcement)

M

Mandible, arteriovenous malformation of (Anderson, Grisius, and McKean), 118
central hemangioma of (Sadowsky et al.), 471
mesenchymal chondrosarcoma of (Caravolas et al.), 478
multiosseous osteosarcoma involving (Stroncek et al.), 271
parosteal lipoma of (Steiner et al.), 61
severely atrophied; muscle tendon release and transposition for enhancement of mandibular denture stability (Friedlander), 461
unilateral loss of ramus of (El-Mofty), 372
Mandibular advancement via modified sagittal split ramus osteotomy, influence on masticatory musculature (Wessberg and Epker), 113
tumor-induced muscular weakness and osteomalacia (Nitzan, Marmary, and Azaz), 253
Maxilla, computed tomography of, in edentulous patients (Engström and Svendsen), 557
surgical inferior repositioning of (Wessberg and Epker), 349
Maxillary tuberosity gingiva, angiosarcoma metastatic to (Toth et al.), 71
Maxillofacial trauma; bilateral microneurosurgical reconstruction of inferior alveolar nerves via autogenous sural nerve transplantation (Wessberg and Wolford), 465
Melanoacanthoma of oral mucosa (Schneider, Mesa, and Haber), 284
Melanocyte colonization of oral squamous cell carcinoma (Dunlap and Tomich), 524
Mesenchymal chondrosarcoma of mandible (Caravolas et al.), 478
Microneurosurgical reconstruction, bilateral, of inferior alveolar nerves via autogenous sural nerve transplantation (Wessberg and Wolford), 465
Molar, mandibular, with periradicular pathosis, dermatologic lesion resulting from (Braun and Lehman), 210
Mucormycosis (Breiman, Sadowsky, and Friedman), 375
Muscle tendon release and transposition for enhancement of mandibular denture stability (Friedlander), 461
Muscular weakness and osteomalacia, mandibular tumor-induced (Nitzan, Marmary, and Azaz), 253
Musculature, masticatory, influence of mandibular advancement via modified sagittal split ramus osteotomy on (Wessberg and Epker), 113
Myofacial pain dysfunction, three-day conference and workshop on, 348 (Announcement)
Myofascial pain-dysfunction syndrome, application of audiostimulation and electromyographic biofeedback to bruxism and (Manns, Miralles, and Adrián), 247

N

Naloxone-associated morbidity and mortality (Pallasch and Gill), 602
Neonatal asphyxia secondary to Robin complex and neuroglia heterotopia of nasopharynx (Sinn et al.), 137
Nerve, aberrant buccal, encountered at third molar surgery (Singh), 142
inferior alveolar, bilateral microneurosurgical reconstruction of, via autogenous sural nerve transplantation (Wessberg and Wolford), 465
Neuralgia, trigeminal (Mruthyunjaya and Raju), 125
Neurectomy, peripheral, in treatment of trigeminal neuralgia (Mruthyunjaya and Raju), 125
Neuroglia heterotopia of nasopharynx, neonatal asphyxia secondary to Robin complex and (Sinn et al.), 137
Nevi, intramucosal cellular (Devildos and Langlois), 162
Nicotine, effects of intra-arterial epinephrine and, on gingival circulation (Clarke, Shephard, and Hirsch), 577
Noma in nonhuman primate (Buchanan et al.), 19
Nuclear magnetic resonance (NMR): dental imaging without x-rays? (Luijk), 321

O

Odontoclastoma or idiopathic external resorption (Sadler and Ritchie), 304
Odontodysplasia, enamel in (Kerebel and Kerebel), 404
Oral cancer, immunologic reaction to (Toto, Bromberg, and Toto), 327
cavity, *Actinobacillus actinomycetemcomitans* infection in (Peel, Rich, and Reade), 591
verrucous, of (McCoy and Waldron), 623
diseases, vesiculoerosive, prednisone and azathioprine in treatment of patients with (Lozada), 257
focal acantholytic dyskeratosis (Freedman, Lumerman, and Kerpel), 66
histoplasmosis, spontaneous regression of (Young, Rohrer, and Twesme), 267
medicine, 31, 143, 257, 379, 487, 594
mucosa, clinical and histologic changes of, in pernicious anemia (Greenberg), 38
fibrous histiocytomas of (Hoffman and Martinez), 277
juvenile xanthogranuloma of (Cohen et al.), 513
melanoacanthoma of (Schneider, Mesa, and Haber), 284
warty dyskeratoma of (Patibanda), 422
pathology, 43, 154, 264, 395, 501, 604
radiographic manifestations of metastatic prostatic carcinoma (Ciola), 105
squamous cell carcinoma, melanocyte colonization of (Dunlap and Tomich), 524
surgery, 1, 113, 226, 349, 461, 569
curriculum, undergraduate, self-instruction guides in (Smith, Gordon, and Beirne), 28
value of computerized tomography in (Frame and Wake), 357
Orbital floor, dentigerous cyst of maxillary sinus causing elevation of (Golden et al.), 133
Osteoma of condyle, 223 (Roentgeno-oddities)
unusual calcified mass of maxillary sinus (Billingsley, Buhler, and Schow), 244
Osteomalacia, muscular weakness and, mandibular tumor-induced (Nitzan, Marmary, and Azaz), 253
Osteomatous changes and tooth abnormalities found in jaws of patients with adenomatosis coli (Ida, Nakamura, and Utsunomiya), 2

Osteomyelitis, unilateral loss of ramus of mandible as result of (El-Mofty), 372
Osteosarcoma, multiosseous, involving mandible (Stroncek et al.), 271
Osteotomy, modified sagittal split ramus, mandibular advancement via, influence on masticatory musculature (Wessberg and Epker), 113
Oxidoreductase activity in pulp of replanted and autotransplanted teeth in young dogs (Skoglund, Hasselgren, and Tronstad), 205

P

Pain: poor parameter of evaluation in dentistry (Taintor et al.), 299
dysfunction syndrome, application of audiostimulation and electromyographic biofeedback to bruxism and (Manns, Miralles, and Adrián), 247
Palatal erythema, variations of, secondary to fellatio (Damm, White, and Brinker), 417
Panoramic radiographic identification of carotid arterial plaques (Friedlander and Lande), 102
radiography, rotational, effects of errors in film speed and beam alignment on image layer in (McDavid et al.), 561
new method for image layer analysis in (McDavid, Welander, and Morris), 213
Paramandibular soft tissues, aggressive fibromatosis involving (Rodu, Weathers, and Campbell), 395
Parosteal lipoma of mandible (Steiner et al.), 61
Parotid duct injuries (Van Sickels and Alexander), 364
gland enlargement, asymptomatic, in diabetes mellitus (Russotto), 594
lipomas of (Baker, Jensen, and Correll), 167
pathophysiology after mixed gamma and neutron irradiation of cancer patients (Anderson, Izutsu, and Rice), 495
Parotidectomy, Frey's syndrome following (Scouteris et al.), 368
Patients, edentulous, computed tomography of maxilla in (Engström and Svendsen), 557
findings from radiographs of jaws of (Spyropoulos, Patsakas, and Angelopoulos), 455
Periodontal breakdown, accelerated, in uncontrolled diabetes (Bartolucci and Parkes), 387
ligament space, widening of, in scleroderma (Marmary, Glaiss, and Pisanty), 32
Periodontosis, juvenile; comparison of identical twins in relation to three dental anomalies (Rubin et al.), 391
Periradicular pathosis, dermatologic lesion resulting from mandibular molar with (Braun and Lehman), 210
Photoelastic stress analysis of hemimandibulectomy bone reconstruction devices (Williams, Caputo, and Sanders), 339
Pigmentation, gingival, as sole presenting sign of chronic lead poisoning in mentally retarded adult (Lockhart), 143
Plaques, carotid arterial, panoramic radiographic identification of (Friedlander and Lande), 102
Plasma cell lesions of jaws, diagnostic use of immunoperoxidase techniques for (Wright, Wysocki, and Bannerjee), 615
thromboplastin antecedent (PTA) deficiency; complications of severe bleeding in patient with undiagnosed Factor XI deficiency (Evian et al.), 12
Plateauitization, bilateral, 222 (Roentgeno-oddities)
Prednisone and azathioprine in treatment of patients with vesiculoerosive oral diseases (Lozada), 257
Prostatic carcinoma, metastatic, oral radiographic manifestations of (Ciola), 105
Prostheses; photoelastic stress analysis of hemimandibulectomy bone reconstruction devices (Williams, Caputo, and Sanders), 339
Pterygoid hamulus (Charbeneau and Blanton), 574
Pulp, human, effect of certain dental materials on, in tissue culture (Das), 76
monkey, capping of, with Dycal and Ca-eugenol cement (Hørsted, El Attar, and Langeland), 531
of replanted and autotransplanted teeth in young dogs, oxidoreductase activity in (Skoglund, Hasselgren, and Tronstad), 205
responses to two different materials in dog and rat, comparison of (Watts and Paterson), 648
Pulpal-alveolar cellulitis syndrome, acute (Matusow), 187, 630
Pulse granuloma, giant cell hyalin angiopathy or (McMillan et al.), 178
PUVA therapy, possible relationship of epidermoid carcinoma of gingiva to (Krutchkoff, Eisenberg, and Neckritz), 44
Pyogenic infections, dentogenous, bacteriology of (Aderhold, Knothe, and Frenkel), 583
Pyostomatitis vegetans (Cataldo, Covino, and Tesone), 172

R

Radiographs of jaws of edentulous patients, findings from (Spyropoulos, Patsakas, and Angelopoulos), 455
Radiography, cephalometric, faster screen/film combinations for (Hurlburt), 661
rotational panoramic, effects of errors in film speed and beam alignment on image layer in (McDavid et al.), 561
new method for image layer analysis in (McDavid, Welander, and Morris), 213
Radionuclide imaging; experimental evaluation of endodontic procedures and filling materials (Garcia et al.), 641
Relaxation, stress, and saliva: pilot study involving endodontic patients (Morse et al.), 308
Repositioning of maxilla, surgical inferior (Wessberg and Epker), 349
Resorption, idiopathic external, odontoclastoma or (Sadler and Ritchie), 304
tooth, and root canal therapy, 325 (Roentgeno-oddities)
Robin complex and neuroglia heterotopia of nasopharynx, neonatal asphyxia secondary to (Sinn et al.), 137
Roentgeno-oddities, 109, 221, 325
Root canals, bifid, relationship between crown size and, incidence in mandibular incisor teeth (Warren and Laws), 425
instrumented unfilled, localization of blood-borne bacteria in (Delivanis, Snowden, and Doyle), 430
of human teeth, quantitative measurements of diffusion in vitro of some aldehydes in (s-Gravenmade, Wemes, and Dankert), 97
therapy, tooth resorption and, 325 (Roentgeno-oddities)
fracture, vertical, additional clinical observation in two cases of (Meister et al.), 91
resorption, idiopathic external, odontoclastoma or (Sadler and Ritchie), 304
retained, fibrous dysplasia surrounding, 110 (Roentgeno-oddities)
Rubber products, contact stomatitis to (Cohen and Hoffman), 491

S

Saliva, stress, relaxation, and; pilot study involving endodontic patients (Morse et al.), 308
substitute, use of, as treatment for xerostomia in Sjögren's syndrome (Weisz), 384
Salivary glands, minor, papillary cystadenoma lymphomatosum arising in (Fantasia and Miller), 411
mucous, adenomatoid hyperplasia of (Arafat, Brannon, and Ellis), 51
origin, pleomorphic adenoma of, "hyaline cells" in (Buchner, David, and Hansen), 506
Sarcoid temporomandibular arthritis (Schwartz), 588

Scleroderma: oral manifestations (Marmary, Glaiss, and Pisanty), 32
Screen/film combinations, faster, for cephalometric radiography (Hurlburt), 661
Self-instruction guides in undergraduate oral surgery curriculum (Smith, Gordon, and Beirne), 28
Sialochemistry for diagnosis of Sjögren's syndrome in xerostomic patients (Ben-Aryeh et al.), 487
Sinus, maxillary, dentigerous cyst of, causing elevation of orbital floor (Golden et al.), 133
  unusual calcified mass of (Billingsley, Buhler, and Schow), 244
  tracts, dual, from single tooth (Weisman), 653
Sjögren's syndrome, sialochemistry for diagnosis of, in xerostomic patients (Ben-Aryeh et al.), 487
  use of saliva substitute as treatment for xerostomia in (Weisz), 384
Smoking: effects of intra-arterial epinephrine and nicotine on gingival circulation (Clarke, Shephard, and Hirsch), 577
Snow-capped teeth (amelogenesis imperfecta, hypomaturation type), clinical, genetic, and ultrastructural study of (Escobar, Goldblatt, and Bixler), 607
Society for Office Based Surgery, 460 (Announcement)
Soft tissues, paramandibular, aggressive fibromatosis involving (Rodu, Weathers, and Campbell), 395
Spectral distribution, effects of, on x-ray image quality (Duckworth et al.), 314
Stomatitis, contact, to rubber products (Cohen and Hoffman), 491
  denture; retrospective study of patients with recurrent chronic atrophic candidosis (Samaranayake and MacFarlane), 150
Stress analysis, photoelastic, of hemimandibulectomy bone reconstruction devices (Williams, Caputo, and Sanders), 339
  effects of intra-arterial epinephrine and nicotine on gingival circulation (Clarke, Shephard, and Hirsch), 577
  relaxation, and saliva: pilot study involving endodontic patients (Morse et al.), 308
Stylohyoid ligament, symptomatic fractured, ossified, surgical management of (Solfanelli, Braun, and Sotereanos), 569
Supernumerary teeth, multiple; comparison of identical twins in relation to three dental anomalies (Rubin et al.), 391
Surgery, exploratory endodontic (Salamat, Rezai, and Knight), 437
  third molar, aberrant buccal nerve encountered at (Singh), 142
Surgical inferior repositioning of maxilla: treatment considerations and comprehensive management (Wessberg and Epker), 349
  management of symptomatic fractured, ossified stylohyoid ligament (Solfanelli, Braun, and Sotereanos), 569

T

Teeth, human, quantitative measurements of diffusion in vitro of some aldehydes in root canals of ('s-Gravenmade, Wemes, and Dankert), 97
  mandibular incisor, relationship between crown size and incidence of bifid root canals in (Warren and Laws), 425
  snow-capped (amelogenesis imperfecta, hypomaturation type), clinical, genetic, and ultrastructural study of (Escobar, Goldblatt, and Bixler), 607
  supernumerary, multiple; comparison of identical twins in relation to three dental anomalies (Rubin et al.), 391
Temporomandibular arthritis, sarcoid (Schwartz), 588
Third molar surgery, aberrant buccal nerve encountered at (Singh), 142
Tissue culture, effect of certain dental materials on human pulp in (Das), 76
Tomography, computed, of maxilla in edentulous patients (Engström and Svendsen), 557
  computerized, value of, in oral surgery (Frame and Wake), 357
Tongue biology, 348 (Announcement)
  glomus tumor (glomangioma) of (Tajima et al.), 288
  lingual abscess following traumatic penetration of tooth into (Palestini), 485
Tooth abnormalities and osteomatous changes found in jaws of patients with adenomatosis coli (Ida, Nakamura, and Utsunomiya), 2
  buds, twin third molar, 111 (Roentgeno-oddities)
  dual sinus tracts from single (Weisman), 653
  eruption; passive delayed eruption of primary dentition secondary to Dilantin administration (Reich, Bernbaum, and Moskowitz), 599
  resorption and root canal therapy, 325 (Roentgeno-oddities)
  traumatic penetration of, into tongue, lingual abscess following (Palestini), 485
Toothbrushing, traumatic lesions of gingiva provoked by, 261 (Letters to editor)
Transplantation, autogenous sural nerve, bilateral microneurosurgical reconstruction of inferior alveolar nerves via (Wessberg and Wolford), 465
Trigeminal neuralgia (Mruthyunjaya and Raju), 125
Tumor, adenomatoid odontogenic, ultrastructure of (Schlosnagle and Someren), 154
  glomus (glomangiona) of tongue (Tajima et al.), 288
  mandibular, muscular weakness and osteomalacia induced by (Nitzan, Marmary, and Azaz), 253
Twin third molar tooth buds, 111 (Roentgeno-oddities)
Twins, identical, comparison of, in relation to three dental anomalies: multiple supernumerary teeth, juvenile periodontosis, and zero caries incidence (Rubin et al.), 391

U

Ultrastructure of adenomatoid odontogenic tumor (Schlosnagle and Someren), 154
University of Southern California School of Dentistry, 112 (Announcement)
University of Texas Health Science Center at San Antonio, 568, 666 (Announcements)

V

Vancomycin-induced hypotension (Waters and Rosenberg), 239
Verrucous carcinoma of oral cavity (McCoy and Waldron), 623
Vesiculoerosive oral diseases, prednisone and azathioprine in treatment of patients with (Lozada), 257
Videoradiographic system, synchronized biplane, employing image manipulation for improved diagnosis and dose reduction (Berry and Hofmann), 657

W

Warty dyskeratoma of oral mucosa (Patibanda), 422

X

Xanthogranuloma, juvenile, of oral mucosa (Cohen et al.), 513
Xeroradiographs, dental, duplication of (Gratt and Sickles), 449
Xerostomia, 262 (Letters to editor)
  sialochemistry for diagnosis of Sjögren's syndrome in patients with (Ben-Aryeh et al.), 487

Xerostomia—cont'd
use of saliva substitute as treatment for, in Sjögren's syndrome (Weisz), 384
X-ray beam alignment, effects of error in film speed and, on image layer in rotational panoramic radiography (McDavid et al.), 561
dental, energy-selective filtration of (Gelsky and Baker), 565
X-ray—cont'd
image quality, effects of spectral distribution on (Duckworth et al.), 314
motion videotapes; synchronized biplane videoradiographic system employing image manipulation for improved diagnosis and dose reduction (Berry and Hofmann), 657
X-rays, dental imaging without: NMR (Luijk), 321
